[citation needed] On March 24, 2008, Autodesk acquired Vela Software and its associated intellectual property from Autodesk Systems Inc. On November 30, 2008, Autodesk acquired Corel Corporation, and it became the distributor of CorelDRAW. Since 2011, Autodesk also distributed AutoCAD MEP (Mastering Engineer Professional) which, when it was in beta, was not available for purchase. Since then, this has been discontinued. In 2013, Autodesk announced they had acquired the rights to AutoCAD, and to extend the licenses of existing CAD software. In 2015, Autodesk announced they had acquired Steinberg Media Technologies, a producer of music software, and the brand became Steinberg Media Technologies. In 2018, Autodesk purchased the discontinued 3D Studio Max from Maxon Computer Graphics. In 2018, Autodesk announced a new product named Dassault Systemes SolidWorks which allows engineers to design parts and components by using the Computer-Aided Design (CAD) tool. This is a cloud-based 3D design software that allows drafting, simulation, and analysis. In August 2018, Autodesk bought Alibre Design and closed the software. My Favorite New Feature Along with the incremental release of AutoCAD functionality, we will continue to improve and evolve the user experience. We welcome your feedback on the new features and improvements to existing features. Please take the time to share your thoughts on the new features. Visit the Our Blogs page to find out more about the newest AutoCAD updates on the blogs of Autodesk Professional Services, Third Party Software, and Emerging Technologies. What is an incremental release? An incremental release is a set of features, improvements, and bug fixes released over a longer period of time (3-6 months). While we will not provide a formal release cadence, we will be making an effort to release new functionality between service packs, beginning in September 2017. What is a service pack? A service pack (or update) is a set of features, improvements, and bug fixes released over a shorter period of time (10-12 weeks). Service packs will be released on a 3-month cadence (summer/fall/winter) and will address a specific request for functionality. For further background, see our History page. In October 2015, we released AutoCAD v19.0, the biggest release in the AutoCAD history with almost 400 new features and improvements.
